Application For Membership

Please enroll our firm as a Company Member of the Electrical Manufacturing and Coil Winding Association, Inc. The membership dues for on year are \$300.00 in U.S. funds, for members with mailing addresses in Canada, Mexico and the United States. In all other countries, the annual dues are \$350.00. The difference in membership fees is because of increased postal charges outside of Canada, Mexico or the United States.

Each company Member can appoint three (3) voting representatives. A company Member's representative shall be required to be a person who can qualify as a Professional Member and will have the same rights and privileges as a Professional Member. A Company Member can change its representatives at any time it wishes.

A **Professional Member** shall be required to be a person who is an engineer or scientist or other with professional responsibilities in the field of coil winding or electrical manufacturing, with not less than two years of professional participation in research, development, application or sales. An engineer, scientist or other is defined as a person who has been granted a degree of Bachelor level and/or a person who has been gainfully employed for not less than five years in performance of duties that pertain to scientific, engineering or sales.

Please Enroll me as a Professional Member. Yearly dues are \$50.00 in U.S. funds for members with address in Canada, Mexico and the United States. In all other countries, the annual dues are \$75.00. The difference in membership fees is because of increased postal charges outside of Canada, Mexico or the United States.

Please Enroll me as a Associate Member. Yearly dues are \$50.00 in U.S. funds for members with address in Canada, Mexico and the United States. In all other countries, the annual dues are \$75.00. The difference in membership fees is because of increased postal charges outside of Canada, Mexico or the United States. An Associate Member shall be required to be a person who is engaged in professional efforts which are directed towards the growth of coil winding or electrical manufacturing technologies, or be a member who meets professional status with the exception of the minimum two year requirement.

Please contact EMCWA's office for information concerning **Student Membership**. The cost is \$10.00 per year.

Membership benefits include: A copy of the most recent Proceedings upon payment of dues • Special rates for exclusive EMCWA conferences, Exhibitions, Short Courses, Work Shops • Publication in the EMCWA roster and directory • Voting and office holding rights for Professional Members and Company Member Representatives • Membership on Industry Advisory Committees.
